# Airpad™ PAPER

BY FROMM

The innovative Airpad PAPER is a new line of Airpad air cushions, which consist of 75% recycled FSC-certified paper. Inflated PAPER Airpads contain > 99% air. They bring the best of both worlds, air and paper, to provide long-lasting protection for your products and provide your customers with a great unpacking experience.

## Producing PAPER Airpads.

With the compact AP150 Airpad machine, small or larger series of PAPER Airpads are produced at a rapid pace. Just like the other compact and ergonomic Airpad machines and equipment, renowned for its high reliability. Easy to fit as a stand-alone or as an integrated part of a packing location.

## Airpads, for every product and space

The available range of PAPER Airpads consists of 2 different variants:

- Wrap and fill format 200 x 135 mm
- Protect and Stabilize: format 400 x 150 mm (8 cushions)

## The sustainability question and objectives

Mindful of our Vision "We actively strive, within all our capabilities, to develop and produce better products for a better planet". We present you the Airpad PAPER Solution as an optimal Ecological and Responsible product protection, which can make a major contribution to achieving corporate sustainability goals.

Used Airpad PAPER cushions can be recycled with paper waste.

The FROMM corporate sustainability rules apply to all modern FROMM and Airpad products. They are developed and produced from top quality materials, that can easily be taken apart and recycled in separate dedicated recycle flows. The durable design of machines and tools, also shows in low maintenance requirements and very limited use of lubricants.

## The FROMM group

FROMM is a Swiss family company with headquarters in Steinhausen, Switzerland. With over 70 years experience in the development, sales and service of a wide range of handheld tools and automated systems for securing and protecting transport loads; including strapping, film wrapping and the unique Airpad Protecting Packaging Solutions, for extra protection of packaged products.

As a vertically integrated manufacturer of equipment and associated consumables, FROMM has full control over all phases of the development process up to and including their production.

All this results in an uncompromisingly reliable quality product with the brand names FROMM® and Airpad™.

## We are always close to you

We are willing to take care of our customers by providing full service to our equipment all around the world.

The FROMM group operates globally through more than 40 own offices in Europe, North and South America, Asia, South Africa, India, and Australia. As well as a range of specialized long-term sales partners around the world. Wherever you are, FROMM can provide you with technical support, full maintenance service and fast deliveries from their (own) local service centres.

*Our dedication is to guarantee an excellent lifespan and operation to all of our products.*
